#### SOLAR TRANSPORT – USA

Experienced and safety-focused CDL Hazmat/Tanker Driver with over 20,000 hours of direct hands-on experience transporting hazardous materials, including gasoline, diesel, and ethanol blends. Employed by Solar Transport, a nationally respected tank-truck carrier with over 50 years of service excellence in logistics and fuel delivery.

- Load and unload petroleum products with precision and adherence to strict federal and state safety regulations.
- Ensure the safe handling, transfer, and documentation of hazardous liquids for both commercial and private fuel clients.
- Maintain an exceptional safety record and demonstrate expert-level knowledge in DOT compliance, spill prevention, and emergency response procedures.
- Serve as a front-line representative of Solar Transport, delivering consistent and reliable service in high-responsibility environments.

#### MAY TRUCKING INC. - USA

Operated 53' dry vans and refrigerated trailers (reefers) across long-haul routes nationwide, accumulating over 500,000 safe driving miles. Developed the foundational experience and discipline necessary for advancement into specialized petroleum and hazmat transport.

- Maintained a 100% clean driving record with no violations or safety incidents.
- Consistently met or exceeded expectations for on-time pickups and deliveries across diverse routes and climates.
- Gained expertise in route planning, time management, and DOT compliance critical for high-responsibility freight operations.
- Demonstrated professional conduct and customer-focused service while representing May Trucking across regional and national accounts.

#### XEROX CORPORATION - USA

Specialized in facilitating and streamlining digital communication between individuals, teams, and systems through advanced Xerox technologies. Played a key role in optimizing internal and external communication channels across various media platforms.

- Managed the transfer of data across multiple formats using Xerox enterprise solutions and integrated communication tools.
- Simplified complex communication work-flows through efficient use of short message services (SMS), video conferencing, HTML-based interfaces, and digital imaging technologies.
- Supported cross-departmental initiatives by enhancing the clarity, accessibility, and responsiveness of organizational messaging.

#### UNIVERSITY OF HAWAI'I AT MĀNOA – Honolulu, HI Post-Baccalaureate Certificate in Secondary Education (Science)

Completed a rigorous post-baccalaureate teacher preparation program with specialization in secondary science education. Developed instructional expertise across the natural and formal sciences with a strong emphasis on scientific inquiry, logic, and theory validation through the scientific method.

#### UNITED STATES OF AMERICA AIR FORCE – USA

Served as an Aircraft Maintenance Specialist (Crew Chief) for the F-16 Fighting Falcon, one of the most advanced multi-role fighter jets in the U.S. Air Force fleet.
